

Andolsek Park Restrooms

"We were able to partner with the Parish on this endeavor so the cost of the project (about \$108,000) was shared. I know the permanent restrooms will be appreciated by all participants and spectators of Andolsek Park sporting events."

~Mayor Charles Caillouet

In 2009, the city began seeking "partners" to help fund the Andolsek Restroom Project. Fortunately, Lafourche Parish agreed to assist with funding and the city started taking the necessary steps to complete the \$108,878 project.

We had to obtain the right-of-way to run sewer lines, water lines, and electrical lines (which required Thibodaux City Council approval). The project was then contracted out to LA Contracting Enterprise, LLC.

We had hope to complete the project by the end of 2009, but we broke ground a little later than expected, on December 7, 2009. We expect to complete the project by early March, weather permitting.
