

Senior Center Parking Lot

"The addition will create about 25 more parking spaces, but more importantly the parking lot addition will provide a safer exit for seniors who regularly attend activities at the Thibodaux Senior Center."

~Mayor Charles Caillouet

The Senior Citizen Parking Lot Expansion Project will soon be underway. Bids were received on February 9, 2010 and the low bidder was Byron Talbot Contractor, Inc. at \$120,664. All information will be on the Thibodaux City Council agenda at their next meeting on Feb 18, 2010. If approved, the construction of the project will begin around mid-March.

The project is being funded, in part, with a \$130,000 grant from the Lorio Foundation.

After completion, center participants will be able to exit onto President Street instead of the busier Canal Boulevard.
